<b>Description</b>					
Requiring bittering agents in certain engine coolants and antifreeze and providing a penalty					

**Assumptions Used in Arriving at Fiscal Estimate**

This bill would require engine coolant and antifreeze that is sold within Wisconsin and that contains more than 10 percent ethylene glycol, to also contain a bittering agent of denatonium benzoate.

The department anticipates very few complaints. Should the department receive a complaint, violations are subject to prosecution by a district attorney, therefore complaints would be referred for enforcement.

Based on this assumption, the department does not anticipate an increase in workload.

**Long-Range Fiscal Implications**
